

Update as of April 4, 2020

The Connecticut Department of Public Health issued a Circular Letter directly addressing family campgrounds as of April 1, 2020. The letter stated "Family campgrounds are nonessential businesses and therefore are to be closed at this time." The CCOA, (Connecticut Campground Owners Association) continues to pursue a change to the non-essential designation, and we remain hopeful that an exception will be made at least for seasonal camping in time for opening. Please note, in order to comply with the spirit of the current non-essential designation, we are now discouraging everyone from visiting camp throughout the pre-season clean-up period. Bathroom facilities will not be available prior to opening.

We will continue to post updates as they become available.
