October 1 – Friendsgiving Pot Luck

October 2 – Sax/Bloody Mary Sunday A camper event

October 2 – Kids football game

Tips From Teresa of Road Tech RV

There are literally thousands of mouse traps, deterrents and everyday products like Irish Spring soap and Bounce dryer sheets that can be used to discourage mice from infiltrating your camper. To save you lots of time, headaches and money, hundreds of them have been tested and video has been recorded of what mice actually do when presented with each one. Search You Tube for “Shawn Woods mouse traps.” You will be surprised at the results. (Hint: Steel wool is your best friend.)

Missing Boat Trailer

If you recently pulled your pontoon boat out of the water, please check and make sure the trailer you used is yours. The Hornat boat trailer went missing last week and we suspect someone mistook our trailer for theirs.

Dock Take-Out Schedule

All dock patrons of the floating docks are required to remove their boats, lines and bumpers by Sunday, **September 25**. Boats not winter storing at camp need to be removed by 10/10.

Boat Trailer Stickers

If your boat trailer sticker is falling off or has fallen off, please see the office to obtain a new sticker.

Boat Storage At Laurel Lock

If you are storing your boat at LLC for the winter season, please be sure to park your trailer on the east side of the field (the side closest to Cottage Road). Stored boats need to be prepaid and registered in the office by October 10.

Sign Up For Water System Winterization, Boat Storage And Site Clean Up

Sign up sheets for water system winterization, boat storage and site clean up are in the office from now until close of camp.

Friendsgiving

A Friendsgiving celebration on October 1 is on our events calendar. Sign up on the board to bring a turkey, side dish, vegetable or dessert.

A Closing Up Checklist

Including this weekend, we have 3 glorious weekends of camping left this season. For those of you who choose to pack it in early and say goodbye to your camping friends, we have a checklist of items we would like you to consider when preparing your campsite for the winter:

- Detach hookups from water and electric (we will shut down electric this winter) **but do not remove the anti-siphon valve from the water spigot**
- Winterize your RV water system or sign up for winterization
- Disable and cover your golf cart or remove it from the property
- Put away decorations and personal items on your site to prevent damage and allow for spring clean-up, especially if you are hiring LLC to clean up your leaves.
- Remove kayaks, canoes and SUPs from racks by the water and store under camper, on deck or take home
- Sign up for site cleaning with the office if you wish to hire LLC to do it for you.

Electric Invoices And Winter Storage Bills

Combined electric and winter storage invoices were mailed to customers at their homes this past Monday. If you did not receive an invoice, please inquire in the office.
