

September 1, 2023

Dear Camper,

After negotiating with Frontier Communications for most of the camping season, Laurel Lock Campground, LLC has now executed a four-year contract for fiber optic Wi-Fi to be run throughout the campground. The service will go live as of May 1, 2024, and will provide 50 MB per second of upload and download speed. To date approximately 1/3 of sites have expressed interest in obtaining this service. The cost will be \$56 per month for a full six months, or \$336 per season. For any site that desires fiber optic Wi-Fi after the initial install, the monthly cost will be determined at the time of the installation and will be higher than the price initially offered. It may also include a separate installation fee. We strongly encourage anyone who is considering digital Wi-Fi to commit to the initial installation. There are various nuances to the contract that make it more beneficial to the campground as a whole if initial adoption of the system is widespread. A deposit of \$100 and a signature of your approval of Wi-Fi installation at your site (see below) will be required to do this, and will be credited to your Wi-Fi account, which will be administered by Laurel Lock Campground, LLC. It will be assumed that any site that does not give the office a \$100 deposit by October 9, 2023 along with the signed authorization, does **not** want to sign up for Wi-Fi for the 2024 camping season.

We believe the pricing and terms we have negotiated with Frontier represent a great value. Through polling of the campground, we realize there are varying opinions as to the need for fiber optic Wi-Fi. It is certainly a rarity for a campground to offer this quality of Wi-Fi at this time. However, management has decided to take this substantial financial obligation to improve the amenity package available to our customers as we see this becoming more of a necessity rather than a luxury going forward.

I authorize Laurel Lock Campground, LLC and Frontier Communications to install fiber-optic Wi-Fi at my site # _____ for the 2024 season which will obligate me to pay \$56 per month for 6 months of service beginning May 1, 2024. My \$100 deposit is attached and will be deducted from the total balance due of \$336.
